College Counselor

Ms. Rita Kenning (M.Ed. - Counseling & Human Services)
ext. 4758

ROLE OF THE COUNSELORS

Since Guerin College Preparatory High School recognizes the basic integrity and dignity of each individual, the Counseling Department attempts to help each student attain their greatest potential personally and educationally. The Counseling Department, through comprehensive services aimed at the unique developmental needs of each student, strives to enhance the student's ability to recognize their potential to make decisions and live with the consequences of their choices.

The Counseling Department is structured so that a counselor follows a student throughout four years at Guerin Prep. Counselors work closely with family, teachers, advisors, and administrators in order to best serve each student.

MAKING AN APPOINTMENT

A student can make an appointment with their counselor or the college counselor by signing the weekly appointment sheet hanging outside the counselor's office. Students should schedule their appointments during their study periods, lunch period, or homeroom.

Parents can make an appointment with their student's counselor or with the college counselor by phone. Please use the extension numbers listed above to contact a counselor. The counselors encourage parents to meet with them concerning their student's personal and academic development.
