

## **STATE AND ILLINOIS SCHOOL CODE MEDICAL EXAMINATION AND IMMUNIZATION RECORDS**

1. Freshmen and transfer students must present a completed Certificate of **Health Examination form when they register**. Chapter 122, Sect. 27-28 of the Illinois School Code requires evidence of a physical examination for all students any time within 12 months immediately prior to entrance into 9th grade. The Illinois School Code requirement for immunizations, indicates specific month, day and year of each dosage. A physician, clinic, or health care provider signature is required in the appropriate place to verify the immunization documentation. The **“HEALTH HISTORY”** must be completed and signed by the parents.
2. **Illinois High School Athletic Association Official Handbook states a student shall not be permitted to engage in practice or play in an interscholastic athletic contest unless the student has filed with the Athletic Director a physical examination certificate dated not more than one year preceding such practice or contest. This form is then filed in the Athletic Director’s office.**
